Many forfeitures are about to accrue, from failure o pay taxes; many claims, otherwise good, will be barred by adverse possession of three years—that being the limitation; many titles of lands conveyed a the United States, cannot be admitted to record in Pexas, for want of proper authentication. Owing to some one or other of these causes, the best lands are in a condition to be lost.

EVENING TUITION.

MONS. S. CHARTON respectfully informs his friends and pupils, that it is his intention of opening a course of French conversation and French composition, under such arrangement as may suit the attendance of those gentlemen who may be pleased to honor him with their patronage. He would also be pleased to see those gentlemen who applied to him during the summer, and such others as may be desirous of commencing the study with him, as he intends opening a class for beginners so soon as six scholars shall have been engaged.

The Chartonian System, otherwise the system of nature, under which his pupils have so much profited, proving to conviction its superiority over all other methods of teaching the French language, wants but to be known to be appreciated.

GREATEST WONDER OF THE AGE.

PATENT GALVANIC RING, AND MAGNETIC FLUID.—These wonderful Rings, and the Galvanic Fluid, have created a great sensation throughout Europe, and are attracting crowds to see them, both in New York and Boston. They cure with astonishing rapidity rheumatism, gout, tic-doloreux, fits, cramp, sick headache, indigention, paralysis, stiff joints, general debility, deficiency of nervous energy, and all nervous disorders. They produce all the beneficial results of the ordinary gaivanic battery, or electric and magnetic machines, without the injurious shocks which always accompany their application. The secret of preparing the Ring was discovered by Professor Harmanee Christie, of London, in October last, and they have been recently introduced into this country by Dr. A. Christie, who warns the American public, from the beginning, to beware of spurious imitations. To guard against fraud, he will appoint but one agency in each of the cities of the United States.
